

# SPEED LIMITING

THE RIGHT SPEED FOR EVERY APPLICATION

**MAX-SAFE** ✓ | MAXIMUM SAFETY  
MADE BY **SGESC** ✓ **MAX**

## OVERVIEW

The **MAX-SAFE Speed Limiting™** solution provides a regulated speed limit for commercial vehicles, allowing the driver and others to be safer in all environments. The solution allows for up to 8 speed settings to be pre-programmed.

The **MAX-SAFE Speed Limiting™** solutions can be tailored to unique applications, such as a simple rotary switch to select the relevant pre-set speed limit, or a lockable key switch to set a maximum allowed speed. This is a perfect solution for mine sites, allowing the supervisor to remove the key once the max speed is set – meaning that the vehicle cannot go over the speed limit from that point on.

Another innovative application of the **MAX-SAFE Speed Limiting™** solution is in tipper trucks – allowing a maximum speed to be set for when the tipper is not in the locked position, restricting the speed to 8km/h.

**MAX-SAFE Speed Limiting** solutions are suitable for a range of vehicles including, but not limited to, prime-movers, fork-lifts, trucks, buses, 4x4s, and heavy machinery.

The flexibility of the solution allows for a wide range of requirements to be met.

The **MAX-SAFE Speed Limiting** solution – providing safer and more efficient environments.

## BENEFITS

- ◆ Highly Flexible – **8 PROGRAMMABLE SPEED SETTINGS.**
- ◆ **TAILORABLE** to specific applications.
- ◆ **MAXIMUM SPEED LIMIT CAN BE LOCKED** and not overridden.
- ◆ **SECURITY** for Drivers and Safety Managers.
- ◆ One **FAMILIAR SPEED MANAGEMENT SYSTEM** for all fleet vehicles.
- ◆ **AUTOMATIC & MANUAL** options available.
- ◆ Part of the **MAX-SAFE SAFETY ECO-SYSTEM.**
